ENTREPRENEURSHIP
DEVELOPMENT
DESIGN

ABOUT

I am a Software Engineer from Colombia and fellow from international entrepreneurship programs in the U.S and Malaysia. With great capacity for leadership and team/project management. A professional very proficient in web development with Ruby on Rails, flat and elegant web design with HTML and CSS, and game development with C# on Unity3D. Always following best practices and with agile development methodologies like SCRUM.

With preference and passion for innovative and creative tech startups and the whole world of entrepreneurship. In love with indie game development and design.

October 2013
Full scholarship from the government of Malaysia to assist **Global Startup Youth 2013** and the **Global Entrepreneurship Summit 2013**, as a "Youth Leader" from Colombia, in the beautiful city of Kuala Lumpur. Also, a member of one of the four finalist teams of the competition and selected as the best project in the education section. The project was called **"Learn & Earn"**; an incentive based education programme.
More info at globalstartupyouth.org

Global Startup Youth is the biggest gathering of tomorrow's young entrepreneurs in the world. More than 500 youths from more than 100 countries, all in one place for an intense three day bootcamp to create solutions for real world problems in education, health, environment and women empowerment.

ACHIEVEMENTS AND EXTRACURRICULAR ACTIVITIES

December 2012
"Statement of Accomplishment" certificate by the **University of Pennsylvania**, for the Gamification course on the online platform **Coursera**.

July 2012
Half scholarship from the University of Los Andes to assist **YouNoodle Entrepreneurship Summer camp 2013** in San Francisco, at the heart of Silicon Valley. Certificate of participation signed by Tom Kosnik, from **Stanford University**. More info at younoodlecamp.com

YouNoodle camp is an intense four week crash course on entrepreneurship with participants from all around the globe. With focus on learning how to create an innovative business – from developing your initial idea, to networking basics, to honing the perfect pitch.

June 2012
Member of the winning team at the biannual fair of **Innovation with IT** of the faculty of engineering at the **University of Los Andes** in Bogota, Colombia.

The project consisted on a GPS collar for pets, with a web application so that users could access information about their beloved animals. Made with a combination of Java, PHP and MySQL.

October 2011
Article *"Ser autodidacta: Un punto de vista estudiantil" (been self-taught: a student point of view)* at the the **IGDA Colombia** (International Game Developers Association) official blog.

April 2008
Certificate of participation from the **PEP: III Foro de Excelencia Profesional, Creatividad e Innovación** in Barranquilla, Colombia.
